1980

Mr. Richard Rominger, Director  
California Department of Food & Agriculture  
The Honorable Board of Supervisors  
County of Kern

Gentlemen:

I am pleased to submit this 1980 Agricultural Crop Report which has been compiled in accordance with Section 2279 of the California Food & Agriculture Code.

An increase of 13.94% resulted in a total gross value of the 1980 production at \$1,272,487,140. It must be emphasized, however, that this in no way reflects the amount of profit to the producer.

With larger acreage, better production and increased unit value, lettuce showed the greatest percentage increase at 140%. Other crops showing large percentage increases were: Sugar beets, 81%; Pistachios, 72%; Citrus, 43% and Potatoes, 31%.

King Cotton still holds the top spot with a value of \$354,427,000, followed by Grapes at \$194,640,000 and Almonds at \$147,237,000.

Cattle and calves took a \$24,000,000 drop in value, but maintained the number four position. Other crops taking significant drops in value were carrots at \$14½ million and onions at \$4½ million; while tomatoes, figs and barley each went down by one million.

Pistachios kept their upward climb, moving into the 11th most valuable crop. In 1978, they were in 31st place.

My sincere thanks to the individuals and firms whose cooperation made this report possible; and to Deputy Commissioner, Charles Bennett, who compiled the report.

Respectfully submitted,

Robert A. Edwards  
Agricultural Commissioner
