COMMODITY - Potatoes

BOTANICAL NAME – *Solanum tuberosum*.

PRODUCT FORM - Potatoes

PHYTO FORM - Fed

IMPORT PERMIT - No

RESTRICTIONS - Restricted

SUMMARY INFO -

Seed and Potatoes for consumption (Tubers only):

Phytosanitary Certificate is required. The place of production and its immediate vicinity (within 5 kilometers) must be free from *Synchytrium endobioticum* (potato wart) and the region of production is free from *Globodera rostochiensis* (golden nematode).

Potatoes for propagation must be free from *Synchytrium endobioticum*, *Globodera rostochiensis*, *Leptinotarsa decemlineata* (Colorado potato beetle), and substantially free from adhering soil and other contaminations. Also must be substantially free from dangerous diseases, particularly virus diseases.

Packing material must be clean and in good condition.

Ware potato consignments (for consumption) must carry a label mentioning "ware potatoes."

Potatoes must be imported through the following points:

Alger, Bone, Bougie, Mostagnem, Oran, or Phillippeville. They may also be imported through Nemphurs as long as they are inspected by a plant protection officer from Oran (or samples are submitted to Oran)

SUBSIDIARY INFO -

Phytosanitary inspection must be done within 30 days of shipping.
