SUBSIDIARY INFO –

The official phyto inspection in the exporting country on which the PC is based must take place no more than 15 days preceding the shipping date if the consignment is seedlings or nursery plants, no more than 21 days preceding the shipping date if the consignment is seeds, and no more than 7 days preceding the shipping date if the consignment is from other plant products. PC's must be accurate and legible and have no alternations or erasures. AD's will be written on PC's only when specifically required. If a treatment of the plant or plant product is required, the details of that treatment will be entered on the PC.
