SUMMARY INFO -

All Products not specifically mentioned in this summary –

Import Permit and Federal Phytosanitary Certificate required. **Do not certify unless an Import Permit is presented.**

Import Permits for the importation of any plants or plant products should be directed to:

Mr. George B Rhodes
Phytosanitary Control
Ministry of Agriculture, Water, & Rural Development
Orban Street, 8
Private Bag 13184
Windhoek 9000 Namibia
Phone: 26461 3022178
Fax: 26461 3022177
Email: agrlaw@iafrica.com.NA

The application for Import Permits should be made at least 30 days prior to the arrival date of the importation. Application forms must be completed in legible letters and figures and must contain the required information. The scientific names of plants must be indicated as well as their common names.

All imports of plants and plant products are subject to inspection upon arrival whether or not they are accompanied by a phytosanitary certificate. Infested products are subject to treatment or destruction.

SUBSIDIARY INFO -

Phytosanitary Inspections must take place within 14 days before the product is shipped. Phytos must be accurate and legible.
